Multibanking Manual

Linking third-party bank accounts in the ZugerKB Banking app

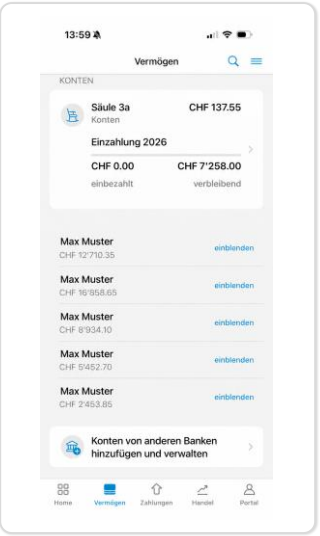

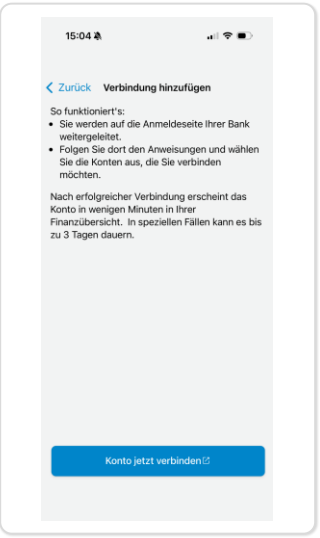

1 September 2026

Zuger Kantonalbank

Start link

ZugerKB Banking app

1 Open asset statement

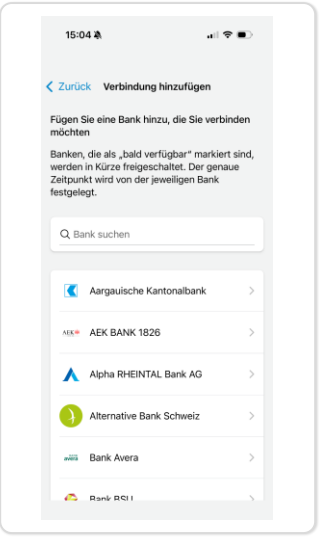

Open “Assets” in the ZugerKB Banking app. Tap below on “Add and manage accounts from other banks”.

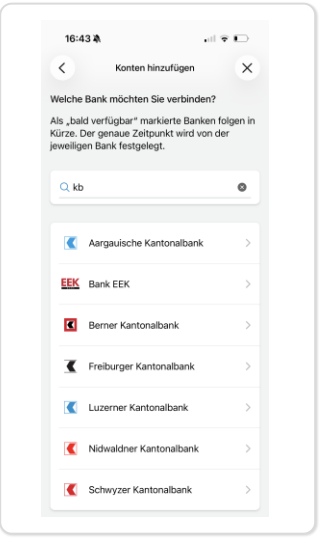

2 Start link

Read the information about forwarding. Then tap on “Link account now”.

Select third-party bank

Example: Schwyzer Kantonalbank

3 Search for bank

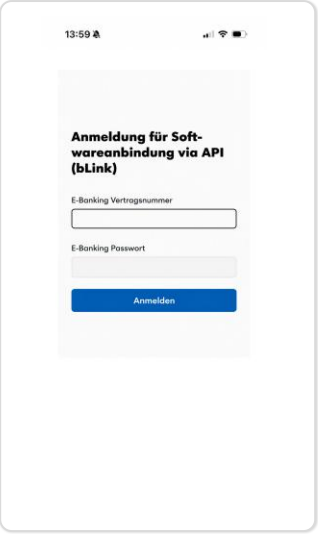

Select the desired bank from the list or use the search field “Search for bank”.

4 Open search results

Enter a search term, such as “KB”. Then tap on the bank of your choice.

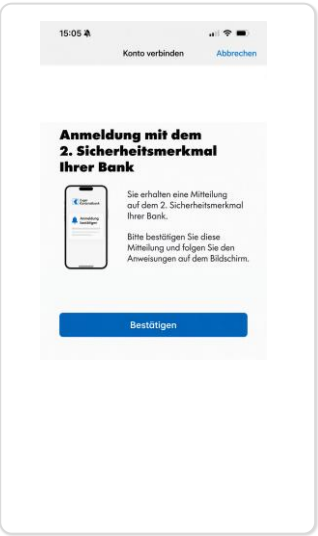

Log in to the third-party bank

The login process takes place on the selected bank's website.

5 Enter access data

Enter the e-banking agreement number and e-banking password for the third-party bank. Tap on "Log in."

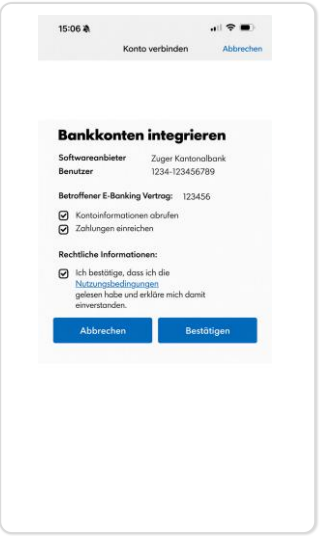

6 Confirm login

Open the push notification from the third-party bank and confirm the login within the security app. With other login procedures, please follow the instructions on screen.

Confirm and complete authorisation

Check the details before accepting

7 Accept

Check the e-banking agreement concerned as well as the displayed authorisations. Accept the conditions of use and tap on “Confirm”.

8 Complete link

Once you receive the message “Account successfully linked” you can close the window. The linked account will then be displayed in the financial overview.
